

Daniel Bennett

Curriculum Vitae

Department of Psychiatry, Monash University, Australia
e-mail: daniel.bennett@monash.edu
website: <https://bennett-daniel.github.io>

Research interests	I study mood, learning, and decision making. I use computational methods (e.g., reinforcement learning models of behaviour, multivariate pattern analysis of neural data) to understand how these phenomena interact. I am particularly interested in investigating the ways that interactions between mood, learning, and decision making might go awry in psychiatric conditions like major depression and bipolar disorder.	
Employment	<i>Postdoctoral Research Fellow</i>	2019-present
	Princeton Neuroscience Institute, Princeton University & Department of Psychiatry, Monash University	
	<i>Postdoctoral Research Associate</i>	2017-2018
	Princeton Neuroscience Institute, Princeton University Advisor: Yael Niv	
Education	<i>Doctor of Philosophy (PhD) in Psychology</i>	2013-2017
	The University of Melbourne Thesis: Belief updating and information seeking in decision making under uncertainty Supervisors: Stefan Bode, Carsten Murawski, Rob Hester	
	<i>Bachelor of Science (Honours) in Psychology</i>	2011
	The University of Melbourne Thesis: Visual object detection in schizophrenia Supervisors: Olivia Carter, Suresh Sundram	
	<i>Bachelor of Science and Bachelor of Arts</i>	2007-2010
	The University of Western Australia	
Publications	<i>Preprints and under review</i>	
	<ol style="list-style-type: none">1. Bennett, D., Davidson, G., & Niv, Y. (under review). A model of mood as integrated advantage. Preprint hosted at <i>PsyArXiv</i>: https://psyarxiv.com/dzsme/2. Smillie, L. D., Bennett, D., Tan, N. P., Sutcliffe, K., Fayn, K., Bode, S., & Wacker, J. (under review). Does openness/intellect predict sensitivity to the reward value of information?. Manuscript submitted for review.	
	<i>Book chapters</i>	
	<ol style="list-style-type: none">3. Bennett, D., & Niv, Y. (2020). Opening Burton's clock: Psychiatric insights from computational cognitive models. Chapter in <i>The Cognitive Neurosciences, 6th edition</i> (M. Gazzaniga, ed.).	
	<i>Peer-reviewed journal publications</i>

**Funding
and awards**

Travel Fellowship Award (USD \$2,000) Society of Biological Psychiatry	2020
Graduate Fellowship (USD \$40,000) American-Australian Association	2019
CJ Martin Early Career Fellowship (AUD \$417,192) National Health and Medical Research Council Project title: Towards a neurocomputational model of mood instability in psychiatric illness.	2019-2022
Career Development Award (AUD \$1,500) School of Psychological Sciences, The University of Melbourne	2016
Postgraduate student presentation award School of Psychological Sciences, The University of Melbourne	2015
Melbourne Abroad Travelling Scholarship (AUD \$1,500) The University of Melbourne	2014
Australian Postgraduate Award (AUD \$92,008) Postgraduate research scholarship, Australian Federal Department of Education	2013-2016
Dwight Prize for Honours in Psychology For coursework in Psychology at The University of Melbourne	2011
Dean's Honours List in Science For coursework in the Bachelor of Science at The University of Melbourne	2011
Convocation, The UWA Graduates Association Prize Award for undergraduate coursework	2008
Commonwealth Accommodation Scholarship Undergraduate scholarship, Australian Federal Department of Education	2007-2010

Presentations

Invited presentations and symposia

1. "A transdiagnostic association between mood pathology and mood-learning interaction."
Talk within the *Computational Psychiatry* symposium at the Biological Psychiatry

Australian Conference 2020.

2. “Modelling mood and mood disorders with reinforcement learning.” Invited presentation at the Institute for Pure and Applied Mathematics, UCLA, February 2020.
3. “Individual differences in attention allocation during value construction.” Invited presentation at the Parallel Distributed Processing meeting, Princeton University, February 2019 (with Angela Radulescu).
4. “Reinforcement learning and computational psychiatry.” Invited tutorial at the Kavli Summer Institute in Cognitive Neuroscience, Lake Tahoe, July 2018.
5. “Assessing mood’s effect on attention via compound generalisation.” Invited presentation at the Chesapeake Area Memory and Learning meeting, July 2018.
6. “Affect in reinforcement learning.” Invited presentation at the Parallel Distributed Processing meeting, Princeton University, April 2018.
7. “Assessing mood’s effects on attention via compound generalisation.” Invited presentation at the Center for Computational Cognitive Neuropsychiatry, Rutgers University, May 2018 (with Angela Radulescu).
8. “A computational process model of affect dynamics.” Invited presentation at the Neuroscience and Social Decision Making seminar series, Princeton University, December 2017.
9. “Testing a neurocomputational model of mood instability.” Invited presentation at the Center for Computational Cognitive Neuropsychiatry, Rutgers University, October 2017.
10. “Information seeking in decision making under uncertainty.” Invited presentation at the Affective Brain meeting, University College London, December 2016.
11. “Belief updating and information seeking in decision making under uncertainty.” Invited presentation at the University of California (San Diego), November 2016.
12. “Belief updating and information seeking in decision making under uncertainty.” Invited presentation at Harvard University, October 2016.
13. “Belief updating and information seeking in decision making under uncertainty.” Invited presentation at the Parallel Distributed Processing meeting, Princeton Neuroscience Institute, October 2016.
14. “Impaired reversal learning in psychosis.” Invited presentation at the Princeton Neuroscience Institute, October 2016.

24. **Bennett, D.**, Murawski, C., & Bode, S. (2014). Belief updating is indexed by single-trial P3 amplitude: a neurocognitive modelling approach to EEG. *International Conference on Cognitive Neuroscience: Brisbane, Australia*. (Poster presentation)
25. **Bennett, D.**, Murawski, C., & Bode, S. (2013). Single-trial P3 amplitude indexes feedback information in reinforcement learning. *Australasian Cognitive Neuroscience Conference: Melbourne, Australia*. (Poster presentation)
26. **Bennett, D.**, Carter, O., Cropper, S., & Sundram, S. (2012). The problem of integrating sensory information in schizophrenia. *Melbourne Health Research Week: Melbourne, Australia*. (Poster presentation)

Professional service

Supervision

- 2019-present: Senior thesis co-supervisor for Claire Lee (Princeton University)
- 2019-present: Junior project co-supervisor for Isla Weber (Princeton Neuroscience)
- 2017-2020: PhD co-supervisor for Ariel Goh (Monash University)
- 2014-2017: Assistant supervision for 4 Honours students at The University of Melbourne (primary supervision by Olivia Carter or Stefan Bode)

Ad-hoc peer reviewer (journal articles)

Behavioural Processes; Biological Psychiatry; Cerebral Cortex; Cognition & Emotion; Cognitive, Affective, and Behavioral Neuroscience; Computational Brain & Behavior; Computational Psychiatry; Current Opinion in Behavioral Sciences; eLife; Frontiers in Human Neuroscience; Journal of Affective Disorders; Journal of Cognitive Neuroscience; Journal of Experimental Psychology: General; Journal of Individual Differences; Journal of Neuroscience; NeuroImage; PLoS Computational Biology; PLoS One; Psychiatry & Clinical Neurosciences; Psychonomic Bulletin & Review; Psychological Medicine; Schizophrenia Research; Translational Psychiatry.

Ad-hoc peer reviewer (funding schemes)

German Research Foundation; Swiss National Science Foundation.

Other service

- 2018-2019: Member of seminar series organising committee, Princeton Neuroscience Institute.
- 2016: Graduate student representative for external relations committee, Melbourne School of Psychological Sciences

- 2016: Workshop co-organiser, “Multivariate Analysis of Event-Related Potentials”, University of South Australia, Adelaide

Teaching

Postdoctoral Tutorial Leader

Fall Semester, 2018

Junior Neuroscience Tutorial, Princeton University

Responsibilities: design, deliver, and assess an intensive undergraduate tutorial series on a topic of my choice.

Ad-hoc lecturer

Semester 2, 2016

PSYC40004: Current Topics in Cognitive Neuroscience, The University of Melbourne

Responsibilities: design and deliver a one-off lecture.

Tutor

Semester 1, 2015

PSYC30018: Neuroscience and the Mind, The University of Melbourne

Responsibilities: delivery of tutorial material and assignment marking

Non-residential Tutor

2011-2012

Responsibilities: design and deliver first-year psychology coursework tutorials at several residential colleges at The University of Melbourne (Janet Clarke Hall, Newman College, St. Mary's College, University College).
